## **For your understanding about the previous page.**

I developed the research team by physiotherapists in 1995.

However, I knew that I could perform neither promotion of research, nor socialization as it was, because I was not a medical doctor.

Then, although I had retired, I appealed my idea about coming aged society for one scene of the politics which was my profession. As a result, the medical doctors shown below accepted the necessity, then activity started as an academic society in which doctors could participate;

Dr. Shiro Kanai, the former chairman of the board of directors of the Japanese Clinical Orthopaedic Association,

Dr. Shuichi Kakurai, the chairman of the board of directors of a Japanese Society of Prostheses and Orthotics,

Orthopedic doctors in Fujisawa and then

Dr. Tetsuhiko Kimura, the director of Research Institute of National Rehabilitation Center for Persons with Disabilities.

Although I lost the mayoral election, the real meaning was to declare that I promoted a social movement to enable well-living in the era of arrival of aged society with borrowing the place of an electoral campaign.

Our research progresses now, and I'm confident that it becomes possible to realize human beings' happiness at the super- aged society. In another word, I am assured that we can win the election as opposed to the era a little while later.

It is to realize “Overcome the Disability” by the restructuring of rehabilitation medicine, and we enable to establish the new civilization with the current Freedom and Equality due to adding “Overcome the Disability”.

## What is to Establish the New Civilization?

In 1950

In 2050

The inversion of an age pyramid is an inversion of old common sense of Civilization based on the philosophy of free and equality, like the inversion of Mt. Fuji

The civilization at the age society of the inversion of an age pyramid won't be sustainable by the Aging crisis.

# What is to Establish the New Civilization?

Visited Lines of Torres Vedras, Portugal in 2014  
South end of Napoleon wave.

The modernization that began after the defeat of Napoleon benefited the whole Europe.

# North end of Napoleon wave was stopped at my dream city, Riga

our current Civilization based on the philosophy of Freedom and Equality.

What is to Establish  
the New Civilization?

New Civilization needs not only Freedom and Equality but  
“Overcome the disability” – “Make impairment a dead language”  
by Takizawa Method and Motivative Exercise.
